

Engine Driven Flexible Impeller Pumps

Jabsco engine driven pumps are probably the strongest and most reliable pumps produced today. Combined with other benefits such as self-priming and very high flow rates, these pumps are now the firm favourites of commercial and professional mariners world wide. All the pumps are easily maintained and can fulfil a variety of duties on board both modern and classic vessels.

Jabsco engine driven pumps come in a very wide range of performances and sizes and can be direct driven by either a clutch, pulley, hydraulic drive, or close coupled to a suitable power take off on the engine. These pumps are suitable for applications such as:-

- High flow, heavy duty bilge pumps.
- Emergency on board bilge pumps.
- Fire fighting pumps.
- Engine cooling.
- Water ballast transfer.
- Circulation duties.

Jabsco Manual or Electric Clutch Bilge Pump
