

Electric Toilets

Lite Flush Toilets

A new Electric Toilet designed to instantly re-fit your existing manual toilet, or to give your bathroom a modern, stylish look.

The Lite Flush is Jabsco's new stylish low power consuming electric toilet, designed specifically to replace an existing Jabsco manual toilet. The installation is quick and straight forward due to the same footprint, fixing points and hose attachments as the Jabsco manual toilet.

The compact and lightweight design with its ceramic bowl and plaster outer casing makes it very easy to clean. It is fitted with a new quiet and efficient flush pump which has large clearances to help prevent blockages.

Lite flush toilets are available with either a foot switch - left or right fitting, or the wall mounted control panel currently used on the Deluxe Flush Range.
